SAHIN MONDAL

Senior Software Engineer | Full Stack Developer

Kolkata, West Bengal | +91 8768916367 | sahinmondal7@gmail.com | GitHub LinkedIn

PROFESSIONAL SUMMARY

Senior Software Engineer and Full Stack Developer with 2+ years of professional software development experience building and maintaining production business applications using React.js, JavaScript, Node.js, Express.js, and MongoDB. Experienced in developing enterprise ERP and CRM applications, REST APIs, dashboards, employee workflows, attendance, salary processing, asset management, reimbursement, and e-commerce applications. Strong experience across frontend development, backend API development, database operations, business logic, production debugging, and application maintenance.

TECHNICAL SKILLS

Languages: JavaScript, HTML5, CSS3

Frontend: React.js, React Native, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, REST APIs

Database: MongoDB

Development: Full Stack Development, API Integration, Responsive Web Development, Database Management

Tools: Git, GitHub, Postman

Deployment: Hostinger

PROFESSIONAL EXPERIENCE

We Alll

Senior Software Engineer | Apr 2026 – Present

- Develop and maintain enterprise ERP and CRM applications supporting internal business operations and employee workflows.
- Build responsive dashboards and business interfaces using React.js, reusable components, and modern frontend development practices.
- Develop backend services and REST APIs using Node.js, Express.js, and JavaScript.
- Design and manage MongoDB data structures, database operations, and application-level business logic.
- Develop and enhance modules including employee management, attendance, salary processing, asset management, reimbursement, CRM workflows, dashboards, and operational reporting.
- Contribute to React Native application development for extending internal business workflows to mobile platforms.
- Investigate and resolve production issues, perform debugging, and improve application reliability and performance.
- Collaborate with business teams to understand requirements and translate operational workflows into practical software features.

We Alll

Full Stack Developer | Oct 2025 – Mar 2026

- Developed and maintained full-stack business applications using React.js, Node.js, Express.js, JavaScript, and MongoDB.
- Built reusable React components and responsive interfaces for internal business applications.
- Developed and integrated REST APIs to support application workflows and data processing.
- Worked with MongoDB for database operations, data management, and application business logic.
- Integrated frontend applications with backend services to deliver end-to-end business features.
- Debugged application issues and supported production maintenance and feature improvements.
- Deployed and maintained applications using Hostinger-based infrastructure.

G4GAME.IN

Frontend Developer | Jan 2024 – Jul 2025

- Developed responsive web applications using React.js, JavaScript, Tailwind CSS, and Bootstrap.
- Built reusable React components and integrated REST APIs for dynamic, data-driven application features.
- Worked with backend APIs and MongoDB-based applications to support end-to-end feature development.
- Improved frontend performance through component structure, code optimization, and efficient rendering practices.
- Performed debugging, testing, and cross-browser compatibility checks to improve application reliability.
- Used Git and GitHub for source control and collaborative development.

SELECTED PROFESSIONAL PROJECTS

We Alll Office ERP & CRM:
Technologies: React.js, Node.js, Express.js, JavaScript, MongoDB

Enterprise ERP and CRM platform supporting employee management, attendance, salary processing, asset management, reimbursement, dashboards, CRM workflows, and operational reporting. Contributed across frontend development, backend APIs, database operations, business logic, production debugging, and application maintenance.

Inventory Management System
Technologies: React.js, Node.js, Express.js, MongoDB

Business inventory application supporting inventory tracking and operational workflows. Contributed to frontend development, backend integration, database operations, and business logic.

MaxGlow E-commerce
Technologies: React.js, Node.js, Express.js, MongoDB

E-commerce application supporting product browsing and online business workflows. Contributed to frontend development, API integration, backend functionality, and production feature maintenance.

SweetTree E-commerce
Technologies: React.js, Node.js, Express.js, MongoDB

E-commerce application supporting product presentation and online business workflows. Contributed to frontend development, backend integration, and production application maintenance.

EARLIER PROFESSIONAL EXPERIENCE

Vega Power Pvt. Ltd.
Civil Site Engineer | Jul 2022 – Sep 2023

- Managed and executed civil engineering project activities according to project schedules and specifications.
- Coordinated with contractors, labour teams, and project stakeholders to support timely project execution.
- Monitored site activities, work progress, material requirements, and resource allocation.

Asoka Projects Pvt. Ltd.
Site Engineer | Jun 2019 – Apr 2022

- Supervised construction activities and monitored work execution according to project specifications and quality requirements.
- Coordinated with contractors, labour teams, and senior engineers to maintain project progress.
- Prepared project reports, progress updates, and supporting documentation using MS Excel.
- Assisted with planning, estimation, resource allocation, and project scheduling.

EDUCATION

B.Tech (Civil Engineering) | Aliah University | 2015 – 2019
